COMMODORE MAURY.

Extract from the Lecture of Dr. Alexander Erskine, Dean of the Faculty of the Memphis Medical College.

The synopsis of Dr. Erskine's address cursorily glanced at CHEMI-TRY. passed to the consideration of the great progress made in the discovery of physi-

oal truth by Newton and later explorers and students, dwelling with particular emphasis upon the discoveries of Maury and the great value of his theory of the winds and currents. The Doctor said:
"These progressive steps in science hav been more recently beautifully illustrated in those ingenious and valuable discoveries which our own great Commodore has made in the physical geography of the sea. He has within a lew years thrown that light upon the great deep which has revolutionized maritime affairs and changed the navigation of the world. When he perfected his object of the winds and our. Mynatt, Charley Jones, Dr. Jno. S. Williams and Joseph R Williams. They propose to make arrangements for a re union next July, in conjunction with the Old Folks.

Council J. Shannon, of the Meridian Gazatte is lying outsell at the Edwards.

INVALUABLE CHART,

which rises under the Equator, to its mouth in the distant Arctic sea, upon whose unexplored shores the lamented Kane once stood; from the tempsrature of its waters under the burning sun of the tropics to the home of the icebarga in the frezent shores to the calm zaphyr-like stillness of the winds which blow over the wide whose of the Pacific; from the great leviathan which ploughs the deep and finds her home in the North to the influence in the South Pacific to their rebound on the distant North Pole, whence they return to refresh and gladden the earth; in these and in much more honor to this member of society as to his natural life in member of society as to his natural life in member of society as to his natural life in member of society as to his natural life in member to society as to his natural life in member of society as to his natural life in member to society as to his natural life in member to society as to his natural life in member of society as to his natural life in member to society as to his natural l

HIS WONDHES with authoritative voice He has has responded in tones of beneficence and love. He has surrendered the knowledge of his trackless paths, the general source of his where his said winds are imprisoned, and whence, and whither, and why they blow—yes, that upon his waves are actual deserts in which there seems to be no life, and over which the lowls of the heavens never fly. How grand, how beneficent its law! How adapted to the wants of every organism it holds, and to the well-being of man whom it blesses with its infinite. of man, whom it blesses with its influite and inexhaustible fulness.
"By careful and labored induction, these

have all been made to yield their practical results in such manner as to have ren-dered nautical life far safer and expeditions than it has ever been before, and has reduced the annual cost of the tonnage of the nations by many millions of dollars. What a triumph to have shortened the passage FROM NEW YORK TO THE BOUATOR ten days, to California thirty days, to Australia sixty days; to have discovered,

BAILWAYS AND THEEBRAPHS.

tinnous current, even as this great river which laves the base of our bluff, ever flows on in allence and majesty to the ocean. I hear now in the distance the rushing tides of men in towns and cities, which have sprung up along these highways under the magic wand of a Christian civil sution. I hear, too, the chime of Pacific waves on the

GOLDEN SHORES OF CALIFORNIA, The synopsis of Dr. Eckins's address, published in the Appeal of Fridsy, attracted a great deal of attention, so much so that we have been requested by several intelligent gentlemen to publish it in full. This we are unable to do for want of space; but we gladly find room for the space; but we gladly find room for the following lengthy extract, having particspace; but we giadly and room to be solved and select the solved particular reference to the schievements of Commodore Maury. Dr. Erskine having and nations on this continent falling under the solved particular to the schievements of and nations on this continent falling under the solved particular to the solved particu

most July, in conjunction with the Old of Polks.

COLONEL J. J. Shanxson, of the Meridian Gesetia, is lying quite ill at the Edwards which is yet untraversed, brought him gate of the seem which is yet untraversed, brought him gate the seem of the seem which is yet untraversed, brought him gate the seem of the seem which is yet untraversed, brought him gate the nations in and one of the most popular orthodox ministers in America, Beecher, told his big a severe attack of pneumonia. Colonel Shannon has been indicted account of the Meridian kuklux, and is in Jackson awaiting the will and pleasure of little and the seem of the

nation sent in the result of its secumula-ted labors, and his rare inductive hand seized upon, analysed and combined these; theorized upon them, establishing law after isw and truth after truth till the result became unquestioned and sire. The world has now the benefit of his la-

IN THE PIELDS OF PHYSICAL SCIENCE INVALUABLE CHART, Swedenborg was confessedly in his day now to be found on the deck of every without a peer. He anticipated many renow to be found on the deck of every ship as an indispensable necessity, and in that rare work, so replete with information, so perspicuous in style, so graceful and elegant in diction, the "The Physical Geography of the Sea." All honor to this son of genius, who, by the power of his grand intellect, has developed those intricate laws which lie hidden in the depths of the possar; which are fail in hypothesis which were never framed to into matrimonial alliances during the past week: George H. Burt and Miss Maggie Dunn; John Beattie and Miss Mary M. Borland; W. H. Cook and Miss Mary E. Walker. In the colored line, five couples are also reported married until death or divorce.

—"A subscriber," who keeps posted on passing events, writes to the Appral, avying the attack recently made on the Queen was a put-up job to get Ireland into worse trouble. The note of subscriber says further, that it was the intention of the Irish people have been striking out for that for several circumbate depths of the ocean; which are felt in the depths of the ocean; which a

> these and in much more honor to this member of society as to his natural life in stupendous mind to whom the ocean has the world. He is, therefore, though unsupernous mind to whom the ocean has spoken in suitible tones and made him consciously, in the scelety of ether angels or devils; and these, according as the interpretar to man, lie a far higher and grander sense than that in which the great poet sang, as he laid his hand upon his created mane and sported with his houghts and actions for good or evil hoary locks and bade him give forth
>
> Death, or the separation of the soul form the had in according to Sender.

from the body, is, according to Sweden borg, not a curse or penalty for sin, as taught by the orthodox. The death pro-nounced upon ain was a separation of the soal from God; but the death of the body trackiesa paths, the general source of his life giving heat, the places where the monsters of kis depths flud homes, the graveyards where the remains of his animalcular life his buried; the influences which arouse his storms and the caves where his solian winds are imprisoned, and whence, and whither, and why they hlow—yes, that upon his waves are actual deserts in which there seems to be no life, of the natural body takes place is is but the shedding of a dead and useless chrys alls; the man, the real man, emerging from this material into his mental or spiritual world, leaving only his body behind him. His character is exactly the same out of the body as in it. He has the same loves, hates, hopes, memories and ambition, and associates at once with those like himself. Death simply un-wraps the man of his body, and his character of its shams and hypocracies, remitting him to his state of good or evil.

SWEDENBORG, LIKE WHILEY, believed in the reality and presence spiritual intelligences, and that there is a close alliance and communication between their own posts. All they have to do its

-The Werriary and present and the service of the tive hymn-writing which has resulted in. for instance, the gargeous Trinity Hymn (by Woeley, we believe), which contains the lines—

"Holy! Holy! Holy! all the saints adore Thes; Casting down their golden crowns upon the glassy sea."

As an example of the plous rhapsodies sung by these Jubilee Singers, we quote a sung by these Jubilee Singers, we quote a course in our system of of a century, and been permitted to witness for himself the things whereof he writes; that thus he was instructed by

the influence and power of the press. I may for a moment advert to the changes which will now be wrought since that great iron band has stretched to the Pacific, uniting distant California to the American Union with links of steel, when the telegraph which has sattled to the Pacific and the pressure of the Bible. This sense, he tells us, is to the literal sanse of the Word what man's soul is to his body. Steal away, steal away; my Lord,
I hain't got long to stay here."

The next starz is the same, save that the word "lightning" takes the place of "thunder," and by such occasional modifications the hymn can be continued almost indefinitely. Very beautiful is the melody entitled "Swing low, sweet charlot," in which those words form a weird refrain:

American Union with links of steel, when has settled down under the ocean and which stretches to him is in every letter and syllable and seatence the Word of God, and contains a hidden meaning which is studied and sought for by angels no less than by men. His precision and minuteness of detail in explaining and comparing certain portions of the old and new testaments are berlamand speak to us in continuous current from Oriental Europe. Within a few while his calm, clear and consecutive reasonings and his bold assertion and approximately. beris and speak to us in continuous cur-rent from Oriental Europe. Within a few years will other rival lines of railroad along more southerly latitudes stretch out their numerous feelers, like long an-tenum to suck into this great body of natural life. Britmus & Co.,

J. H. Cash,

W. Bowses & Co.

The Ledger of last evening, having reference to the above, says: "A meeting will be held at the rooms of the chamber of commerce on Monday, March 4th, at hall-past three c'clock p m, for the pur-pose of organising the Memphis cotton exchange. It is earnestly requested that every cotton man who is interested in the ement will be present. To make the exchange a success, every one should take a personal interest in the matter. Over one hundred names have already been The Brussels Lees Trimming. obtained as members of the exchange. Among them are she leading firms of the city. Let all who are interested in the There is certainly no city more adapted growth of our city attend the meeting on Monday. Every merchant and business

we agree with our contemporary, and opendencies and aggregate and variety of pendencies and of men and means for such an enterprise. None which needs it more and to which it could promise greater or more readily accepted benefit, and to have an exposition we only need that cur will enjoy the services of the same secretary, so as much as possible to limit the expopular prices. man should be there."

TO MERCHANTS!

Announce the receipt of a complete stock of Dry Goods, suited for the Wholesale Trade, and adapted to the present season, a great portion of which was bought before the advance, which enables us to offer to merchants special inducements

Swedenborgian. Rev. Edward Payson Waiton will lec-ture to-night in the Enited States court room, 620 Main street, on "The Book Scaled with Seven Scale, Unassled." Assembly Hall. B. S. Wheeler lectures on Spiritualism, Morning, half past ten o'clock; evening service at half-past syren o'clock—sub-joes: "Science and Seligion."

NEW CHURCH

Vance and Landerdale Streets.

Our statement in last Monday's issue in regard to Messra. Jones & Baidwin being the architects for its erection was prema-ture. The designs we saw were merely claion. Mr. Francis Foster, architect, en-tered into competition with Mesers Jones & Baldwin, and last Thursday the committee made the sward to Mr. Foste ort to The design adopted is gothic, pointed be re-windows, paneled ceiling, plain tower in front, rising to an altitude of eighty feet. When finished, it will be the most picturesque church edifice in Memphia.

THE B BLE SOCIETY.

Anniversary Exercises of the Bemphis and Shelby County Bible Society.

In the Cumberland Presbyterian church at three o'clock this afternoon, the anni-versary exercises of the Memphia and Shelby county Bibls acciety will take place. Mr E H. Porter is president and William R Stewart secretary of this energetic religious association. The exercises this evening will be of an interesting character, participated in by elergym from different denominations. The f lowing is

MEMPHIS, March 2, 1872

Card from the Officers of the Hemphia Gas Light Company. Helena, Marianus and St. Francis River MEMPHIS, TENN., March 2, 1872. The board of directors of the Memph Gas Light company, in an address to the public, dated December 23d last, promised to their customers to furnish not only a better light, but at a rate fifty cents per thousand cubic feet lower than any rival

The annual election for directors or curred on yesterday, and the first act of the new board was to pass a resolution to carry into effect the promise above named and to make the following reduction: Frint's Falat. From \$5 per thousand cubic feet, to \$2 50 per thousand, with the usual discount of FIFIT GENTS PER THOUSAND, for pay-The reliable, first-class passenger puchet ment within the first five days of the month It will thus be seen that the price of gas will be reduced to Two DoL LARS per thousand for cash payments. This reduction to take effect from date. All the controlling interest of this com-pany has but recently passed into the hands of the present owners, yet the new board of directors return their thanks to the public for the patronage extended in

the past, and promise to use every effort in their power to furnish a light une-qualled in brilliancy, and at a price that will be satisfactory to all consumers. W. S. BRUCE, President, GEO. W. GIFT, Sec'y. SPRING STYLES at Wheaton's.
